

FOR IMMEDIATE RELEASE:

Twenty-five years ago, this month, **Shirley MacLaine** and **Richard Pryor** were onstage together when they were inducted into the *Comedy Hall of Fame*, honoring them for their Lifetime Achievements on Stage, Television, and Film. On September 16, 2019, **Richard Pryor Jr.** and Shirley MacLaine's daughter, **Sachi Parker**, will be on stage together, co-starring in a staged reading of *THE INTERRUPTED JOURNEY* at the **Theater for The New City**.*

THE INTERRUPTED JOURNEY is the terrifying true story of Betty and Barney Hill, an inter-racial couple who were abducted and brought on board a UFO where they were interrogated and examined by aliens from another planet. Based on the best-selling book by the late John G. Fuller, **Elizabeth Fuller**, John Fuller's wife, and **Joel Vig** have created a play which captures the horror and panic of an ordinary couple who were kidnapped and brought on board a space craft. The incident was so traumatic that both husband and wife could only remember the events which took place under hypnotic regression administered by a trained doctor who specialized in traumatic amnesia. With governments around the world releasing decades of secret classified files concerning visits to our planet by aliens from other planets, this story is without question the best documented case of alien abduction in all of human history. The reading also stars **Allan Zeller** as the Psychiatrist. It is directed by **Mark S. Graham** and **Robert R. Blume** is the Consulting Producer.

Come and see for yourself how this story proves the unsettling truth that in our universe...WE ARE NOT ALONE!!!! Call (212) 254-1109 to reserve your seats for this one night only NOT TO BE MISSED EVENT.
